To Whom It May Concern,

Please be advised that Stevens Construction Company has been the General Contractor for several medical projects that I have done in the past several years; namely, the construction of approximately 100,000 square feet of commercial/medical office space in three different locations.

I have found the company to be extraordinarily competitive with high quality end results. All projects have been brought in on a timely manner, on schedule, and on budget.

I would highly recommend Stevens Construction Company for any project that would be accepted by them; due to the above reasoning, along with the honesty and integrity of their entire company. I would be happy to discuss any additional information that may be required, and may be reached at the above address.

Yours very truly,

Lois J. Fisher
