November 27, 2006

To Whom It May Concern:

Stevens Construction Company built my dental office during the period of December 2005 to July 2006. Doug and his firm are extremely professional and proficient. Before hiring Stevens, I had several referral letters praising their work.

The foreman of our project was Charlie Shuck, who is very much a perfectionist. Charli was always on the site and always available to answer numerous questions. Several times he had his subcontractors refine their jobs to the utmost of all our expectations.

It was a pleasure to work with Doug and Charlie. Everything was completed on time. I highly recommend Stevens Construction for any project. If anyone would like to contact me regarding their work, I would be happy to talk to them.

Sincerely,

Robert M. Finney, D.D.S.
