130 W. Johnson St.
Upper Sandusky, Ohio 43351

To Whom It May Concern:

As the Co- Chairwomen of the recent renovation project as John Stewart United Methodist Church I would like to congratulate and thank Mr. Douglas Stevens and his crew for a job well done! Stevens Construction Co. served as the general contractor for a large addition to our present structure, which is over 100 years old. The Family Life center and New Narthex was built to match the old structure. It is beautiful. They worked very well with all the other contractors. They made sure the job was completed in a timely fashion. Their workmanship is pure quality and they followed the Architect's and Engineer's speculations and recommendations very well. We were very pleased with their promptness on the job each day and the time they were willing to give the two chairpersons each week as the work progressed. Working with Stevens Construction was a true joy. We would highly recommend them as general contractors for any job. They truly have a crew that is dedicated to quality work. If you would like to come see this work of art just call our church secretary at 1-419-294-2867.

Respectfully Yours, 
Sharyn K. Warfel & Don Jury JSUMC Chairpersons
