- In-House Pharmacy
- Nationally Certified
Chemotherapy Nurses
- Electronic Medical Records

Hope • Compassion • Care One Location • Comprehensive Cancer Therapy

February 9, 2010

To Whom It May Concern:

During 2007-2008, our medical practice, Ohio Cancer Specialists, began the project of our lifetime. This project was the combination of a desire and dream of three dedicated Physicians to be able to build a state of the art 25,000 sq. ft. Comprehensive Cancer Center in north central Ohio. After due diligence, we chose Stevens Construction as our General Contractor. We were able, with the help of Stevens Construction, to successfully face changing government regulations, difficult economic times, and extreme weather conditions, to make our dream a reality. Despite these challenges, through the careful management of Doug Stevens and his son Ben, we were able to keep the project near budget. We were fortunate to have Scott as our construction site superintendent. He was continuously at the site watching over our project. We would have no reservation recommending Stevens Construction to help fulfill your construction goals. If you have any question, please do not hesitate to call.

Sincerely,

Saurabh B. Das, MD
Treasurer
Ohio Cancer Specialists, INC.
