Doug & Ben:

I wanted to take the time to thank you for making my Cenmac Metalworks building project such an easy and successful project. To be honest, I don't think it could have gone better than it did. From start to finish this project took very little of my time away from running my business. I am sitting in my office as I write this letter and as I look out into my shop I could not be happier with the quality of my building.

I appreciate everything that Stevens Construction has done for me on both of the 30,000 sq ft buildings that you have built for me. I hope to be doing an addition with you in the very near future!

Thanks again!!!

A handwritten signature in black ink, appearing to read "Rod Galbreath", written over a white background.

Rod Galbreath

President, Cenmac Metalworks
